** Repeatability may vary with powder type/conditions*

Note: Product shown in photo may include optional items that must be purchased separately.

REVOLUTION

Whether you are loading tens of thousands of rounds of ammunition per day or processing brass for resale, Mark 7's 10 Stage Revolution Progressive Press has you covered. The Revolution platform supports 16 calibers from 380 Auto up to 308 Win and can produce up to 3500 rounds per hour at maximum speed. Switching between calibers is fast and easy using Mark 7's Caliber Conversion Kits.

The Revolution comes complete for continuous loading with an Onboard Collating Primer System, 14" Case Feeder, Mr. Bullet Feeder Pro, and Digital Powder Measure. The Direct-Drive System comes standard with a digital clutch & TorqueSense integrated, and Mark 7 offers an array of cutting-edge sensors designed to halt press operation at the first sign of trouble, preventing damage and downtime.

WHY CHOOSE MARK 7?

- Comprehensive and affordable in-house and field training available to make YOU the expert.
- Quick-change between calibers at a fraction of the cost of other commercial loading machines.
- Extremely small footprint, and the system works with most industry standard dies.
- 1-year Limited Warranty, with the ability to add on a powerful Service Agreement.
- Mark 7's Master Technicians are only a phone call away for support of your equipment.
- Additional Calibers are always being added to satisfy market demand.
- Mark 7 products are backed by Lyman Products, with over 140 years in the firearms & ammo industry.

Specs and Dimensions

The Mark 7 Revolution comes mounted on a machined solid aluminum baseplate with assembled dimensions of 48" high, 20" wide, and 15" deep (122cm x 51cm x 38cm). Some assembly is required. The Revolution Reloading Platform weighs approximately 125 lbs. (57 kg). The press ships in an IPCC-rated wooden crate for maximum protection in transit.

FOR SALES OUTSIDE THE USA:

Please note that ITAR regulations affect international sales of the Revolution. Please contact our Sales Department to discuss our international solutions.
